

REEF GROOVE DRAIN NEW!

At the convergence of the floor and wall, water vanishes into a thin groove of stainless steel.

This ingenious design is an industry first, breaking new ground in the look and functionality of wet areas.

Perfect for those looking to set the trend, not follow.

REEF CODE	GROOVE CHANNEL SIZE
7275.09	119.7mm x 216.8mm tray (overall 900mm)

Flush mounted tiles on the height adjustable insert provides an almost seamless look.
